

**Intent to Take Part in Home Garden Tour Form Due:** Friday, June 24

**Fair Entry Form Due:** Friday, June 24 at Extension Office. Forms are in the back of this book.

**Garden Tour:** July 12 - 14

**Enter Exhibits:** Saturday, July 23 –9:00–11:00 am. Enter in the main door of 4-H Hall and go to the south end of the building (No entries will be accepted after 11:00 am)

**Judging:** July 23, 2010 – 4-H Hall, 12:15 p.m.

## **HORTICULTURE SECTION**

**Superintendents:** Brenda Brink, Tom Gust

**\*\*\*All exhibitors are responsible to read and comply with the General Exhibit Rules and all department exhibit class rules and regulations. These rules can be found on pages 13 and 72.**

### **DEPARTMENT 400 - HOME GARDEN AND VEGETABLE CROP**

1. **Entries are to be set up by the exhibitor.** Exhibitors are encouraged to be present during judging.
2. All entries must be a product of this year's project and must have been produced by the exhibitor.
3. Exhibitors may enter a maximum of twelve (12) garden samples **and** twelve (12) herb garden samples in Class 400 03 \_\_\_\_\_. Only one entry per variety or cultivar allowed.
4. In addition to the twelve garden samples and twelve herb samples, an exhibitor may have a total five (5) additional exhibits from any of the following classes: Educational Garden Idea (400 01 \_\_\_\_), Garden Display (400 02 \_\_\_\_), Commercial Garden (400 06 \_\_\_\_), Horticulture – Educational Display (400 07 \_\_\_\_), and Container Grown Garden (400 08 \_\_\_\_).
5. The garden folder is required but does not count towards the maximum number of entries.
6. Classes will be divided into grade categories as follows: Junior –4<sup>th</sup>, 5<sup>th</sup> & 6<sup>th</sup>; Intermediates – 7<sup>th</sup>, 8<sup>th</sup>, & 9<sup>th</sup>; and Seniors – 10<sup>th</sup>, 11<sup>th</sup> & 12<sup>th</sup>. All grades are as of September 15, 2010.
7. The home garden and vegetable crop projects are meant to provide broad gardening experiences for youth. These experiences include planning the garden, planting, fertilizing, weeding, pest control, harvesting and other gardening practices. To learn these skills, it is advantageous for beginning gardeners to develop a garden that is theirs to manage. Therefore, the **maximum size** garden for 4-H'ers in their first and second years of exhibiting in the home garden/vegetable project area 100 square feet. The produce exhibited must come from this 100 square foot area. As gardeners progress in skills, they can undertake a larger garden and, in time, share the responsibilities of a large family garden. After 2 years of exhibiting in the home garden/vegetable area, exhibitors may enter produce from their personal garden or from a large family garden that they help manage.
8. **A Home Garden Tour Folder and garden plan are required** as part of this project, regardless of the size of the garden, unless the exhibitor is entering only class 400 08 \_\_\_, Container Grown Garden. Garden entries will not be received at fair unless the garden was on the tour and a garden folder was given to the garden judge on the tour. The garden plan must be in a folder with the following accompanying information: photo of garden; drawing of garden with vegetable/flower placements; varieties listed; date, type, amount and frequency of herbicide, pesticide and fertilizer application. Exhibitors must include their official 4-H grade (as of Sept. 15, 2010) and level (Junior, Intermediate, and Senior) on the outside front cover of the folder. In completing the above questions, the exhibitor should include the following information: goal of project; what was done; what was learned. List any special problems encountered in raising your garden and how you solved the problem. Garden plans will be checked on the garden tour. The County Fair Home Garden & Vegetable Entry Form has 400 05 **Home Garden Project Tour Folder** on the first line. Premium will be paid on this exhibit.
9. Story County Master Gardener Association provides a \$15 cash award to the best Junior, Intermediate, and Senior gardens based on garden and folder. Checks are mailed after judging.
10. The Borton Award, sponsored by Art and Donna Borton, will be given to the best garden samples exhibited by a junior, intermediate, and senior.
11. A \$15 cash award will be given for the best container grown garden, class 400 08.
12. The Story County Fairboard treasurer will pay premiums on purple, blue, red, and white placings following the County Fair.
13. On the Home Garden Tour, 4-H'ers have the opportunity to have a conference with the judge. Exhibitors should make every possible effort to be available to visit with the judge on the day of the home garden tour. If this is not possible, the exhibitor may call the judge to hold a telephone conference about the exhibitor's gardening experience. Judging of the produce exhibits at the Story County Fair will not be conference judged. However, written comments may be attached to displays so the exhibitor has an additional educational experience.

- | <b>Class No.</b> | <b>Class Name</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 400 01_          | <p><b>Educational Garden Idea</b> - An exhibit which shows and explains one idea learned from participating in gardening. Include an index card with the exhibit explaining the reason for the exhibit, what was done and what was learned. Actual specimen of garden produce may or may not be included. Exhibit may be displayed in a self-contained unit or on a poster. The unit should fit in a space approximately 15 inches deep, 24 inches long, and 18 inches high. The poster size should not exceed 30 inches in height or width.</p> <p>Evaluation of the educational garden idea class is based on accuracy of information, educational value of the display, and quality of produce, if used.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 400 02_          | <p><b>Garden Display</b> - A display of vegetables as a result of work done in 4-H. May include five (5) or more different varieties of fresh vegetables prepared for exhibit by a single member according to guidelines given in 4-H 462, "Harvesting and Preparing Vegetables for Exhibit" (<a href="http://www.extension.iastate.edu/Publications/4H462.pdf">http://www.extension.iastate.edu/Publications/4H462.pdf</a>.) Displays must have a theme and be displayed in a display box with appropriate art work. Tag varieties of vegetables. If a tag is not appropriate, make a list of varieties in the display to accompany the exhibit. Include an index card with the exhibit explaining the reason for the exhibit, what was done, and what was learned.</p> <p>Evaluation of the Garden Display is based on the quality of the produce and the overall effect of the display including theme, art work and display box. Exhibits in this class will be judged first on quality of produce.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 400 03_          | <p><b>Garden Sample</b> - An exhibitor may enter a maximum of 12 different varieties of vegetables and 12 different varieties of herbs. To enter, list on the entry form the garden sample class number for each of the varieties you intend to bring. (Example: If you intend to enter 6 garden samples, list the entry number for this class, Garden Sample - 400 03_, on the entry form <u>six (6) times</u>. Variety means subdivision of a species. So it can be interpreted to mean tomatoes and potatoes, but also can mean different types of the same thing such as Beef Master and Better Boy Tomatoes. To avoid problems, an exhibitor should try not to enter two different varieties which "look the same".</p> <p>Evaluation of the garden sample is based on the quality of produce exhibited. The judge will consider variety, size, condition, insect damage, disease injury, uniformity, proper preparation and proper number for each class. Prepare and display vegetables according to the <b>pamphlet 4-H-462 "Harvesting and Preparing Vegetables for Exhibit"</b>, <u>but note exceptions that follow</u>. (The pamphlet is available at <a href="http://www.extension.iastate.edu/Publications/4H462.pdf">http://www.extension.iastate.edu/Publications/4H462.pdf</a>.) Identify variety or cultivar on the entry tag. Herbs may be shown as garden samples. Each variety of herb counts as one garden sample.</p> <p><b>Dill</b> – need not have mature seed to use the leaves for seasoning. Exhibit as described in the pamphlet. <b>Herbs - Exhibit 5 sprigs per bottle</b>. A sprig has one main stem and top.</p> <p><b>Rhubarb</b> specimens may <u>not</u> be entered. Rhubarb should not be harvested after mid-June so the plant can replenish its food supply and is more resistant to disease.</p> <p><b>Catmint (catnip)</b> may <u>not</u> be entered.</p> |
| 400 05_          | <p><b>Home Garden Tour Folder</b> - Following the completion of the Home Garden Tour, exhibitor's folder will be evaluated. Please refer to 4-H Garden Tour information letter for specifics on size of notebook to be used.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 400 06_          | <p><b>Commercial Garden</b> - This category is open to all ages. As this class is a commercial venture, exhibitor's folder must have a cost/profit report of supporting documentation of cost and projected revenue. There is no minimum or maximum size of the plot. Judging will be based on basic gardening skills and selection of produce (something that has a ready market - pumpkins, sweet corn, tomatoes, etc.) Size of plot and selection of produce must be such that the exhibitor will gain experience in marketing the harvest. Ref - FG 601 Annual Fruit/Veg Report.</p> <p>( <a href="http://www.extension.iastate.edu/Publications/FG601.pdf">http://www.extension.iastate.edu/Publications/FG601.pdf</a> )</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 400 08_          | <p><b>Container Grown Garden</b><br/> <b>(See ISU Extension Publication PM 870B. It may be downloaded from the Web at <a href="http://www.extension.iastate.edu/Publications/PM870B.pdf">http://www.extension.iastate.edu/Publications/PM870B.pdf</a>)</b></p> <p>Many vegetables and herbs can be grown successfully in containers. One or more plants may be in a container. The vegetables and herbs exhibited do not need to be at harvest stage. This may be the only garden the exhibitor has; therefore it will not be a requirement to be on the garden tour. The goal is to show what can be grown in a container garden. Requirements for an exhibit in this class are:</p> <ul style="list-style-type: none"> <li>• Maximum size container allowed is 6 gallon capacity or if the capacity is unknown - 18" X 24" X 8" (as a reference) or any dimensions that equal same</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

- Exhibit must have folder listing variety names, why you planted a container garden, a short paragraph on cultivation including soil mixture used, fertilization, watering habits, staking, thinning, date vegetables and/or herbs were planted.

Containers will be judged on:

- Quality of plants: 40%
- Educational Value to Exhibitor: 25%
- Educational Value of the Folder to Others: 25%
- Appearance of the Container Garden: 10%

**(includes appearance of container itself)**

**IF GARDEN SAMPLES ARE BROUGHT TO THE FAIR THAT WERE GROWN IN CONTAINERS, EVEN IF THERE WAS NO IN-GROUND GARDEN, THOSE CONTAINERS ARE TO BE ON THE GARDEN TOUR PRIOR TO THE FAIR AND A GARDEN FOLDER IS TO BE DONE, JUST AS IF THEY WERE AN IN-GROUND GARDEN.**

~~Exhibiting Hours: Dec. 1, Fri 8:30-11:00 and Sat 11:00-1:00 Judging which takes place at 12:15 p.m.~~

**DEPARTMENT 450 - FRUIT**

Superintendents: Tom Gust, Brenda Brink

1. Display to consist of fresh fruit exhibit, picture and plan of project. Plan of project should include a description of the purpose of the project; what was done; what was learned; a listing of variety of fruit; date, amount and type of fertilizer, pesticide; date of harvest if relevant, and amount of harvest. List approximate age of the tree or shrub.
2. Judge will consider progress of project work considering the age of the exhibitor and the original goals established in the project, neatness and clarity of display.
  1. Dried fruit is not allowed. Such exhibits are shown in the home economics food preservation classes.
4. If wanting to enter State Fair competition in the Fruit Department, enter class #220 08 \_\_\_ on page 68.

<b>Class No.</b>	<b>Class Name</b>
450 01_	<b>Berries</b> - Example: Strawberries, raspberries, blueberries
450 02_	<b>Fruit</b> - Example: Apples, pears, peaches, plums, cherries, etc.
450 03_	<b>Educational Exhibit</b> - An exhibit which shows and explains one idea learned from participating in the fruit project work. Include reason for exhibit, what was done, what was learned.
450 04_	<b>Commercial Garden</b> - This category is open to all ages. As this class is a commercial venture, exhibitor's folder must have a cost/profit report of supporting documentation of cost and projected revenue. There is no minimum or maximum size of the plot. Judging will be based on basic gardening skills and selection of produce (something that has a ready market). Size of plot and selection of produce must be such that the exhibitor will gain experience in marketing their harvest. Ref - PM 1093 A small farm opportunity, FG 601 Annual Fruit/Veg Report.

~~NOTE: For the 2014-2015 season, the Flower Gardening and Ornamentals Division Office will be in the 2nd Floor Room from 8:30 –11:00 a.m.~~

**DEPARTMENT 500**

**FLOWER GARDENING AND ORNAMENTALS**

**Superintendent:** Beth Atwood, Jerry Upchurch, Sue Upchurch

The Flower Gardening and Ornamentals division is divided into two subdivisions - floriculture and design arrangement.

During judging, your age and the number of years in the project will be taken into consideration as well as the quality of your exhibit.

1. Floriculture consists of the following departments: Annuals, Perennials, Bulbs and Container Grown Plants. **Exhibitors may enter a total of 12 floriculture Specimen exhibits. This can be a combination of any and all specimens grown in their garden (cannot be from a family garden). In addition, exhibitors may exhibit an additional 5 exhibits from classes # 500 03 \_\_\_\_\_ through classes # 500 08 \_\_\_\_\_.** (The Flower garden tour and folder Class # 500 009 \_\_\_\_\_ are excluded from the 5 additional exhibit count).
2. For the annual, perennial and bulbs, a folder and flower garden tour are required before entries may be entered in the County Fair. A tour is not required for container grown plants, but an index card explaining when and how the plant was acquired, fertilizer used, watering habits, and what was learned from the exhibit is required. The index card or folder will need to be at the Extension Office on June 24. (See attached schedule on page 92).
3. During the summer, the flower garden judge will tour your flower garden (see box above for the exact date). Your completed folder will be collected at this time. The event will only be rescheduled due to inclement weather. The Flower Garden and Ornamentals Entry Form will automatically enter the exhibitor in the folder class. (Note: A flower garden folder is required regardless of the size of the garden). See class number 500 09 \_\_\_\_\_ for the folder requirements.
4. All floriculture exhibits must be grown by the exhibitor. Any size garden is acceptable, container, planter box, window box or other garden. Container grown plants must be started **at least 2 months** prior to the County Fair.
5. Floriculture exhibits should be exhibited in a clear glass bottle. Remove foliage that would be in the water.
6. Each exhibitor may enter a maximum of **12 floriculture exhibits (annuals, perennials, bulbs, corms & tubers)**. To enter, list on the entry form (found at the end of this book) class number for each variety entered. (Example, if you want to enter 3 floriculture specimens, list number 500 01\_ three times.) Only one entry per variety allowed.
  1. Exhibitor needs to include an exhibit tag affixed to a clear glass bottle identifying the exhibitor and the flower and variety. Names of variety, uniformity in size, as well as cultural perfection and cleanliness of bloom and leaves increase value in judging.
  2. Story County Master Gardener Association provides a \$15 cash award to the best Junior, Intermediate, and Senior gardens (based on garden and folder). The Borton Award, sponsored by Art and Donna Borton, will be given to the best in Design class exhibited by a junior, intermediate, and senior. Checks are mailed after judging.

### **EXHIBITING TERMS**

**Bloom**-one (1) flower atop a long stem

**Spray**-A single main stem with side branches. Blooms should be in 3 stages of maturity—tight bud, Partially opening flower(s), and fully open flower(s)

**Spike**-one (1) flowering stem with the 3 stages of maturity—fully open at bottom, partially open in the middle, tight bud at the top

**Stem**-A flower stalk that includes flowers and foliage

When the schedule calls for a spray, be sure not to exhibit a branch. That is one of the common errors in flower shows.

**Class No.**

**Class Name**

500 01\_

Floriculture Specimen

Quality and Condition – 75% AND Properly displayed and labeled – 25%

<b>“Examples of Annuals”</b>	<b>“Examples of Perennials”</b>	<b>“Examples of Bulbs, Corms, or Tubers”</b>
------------------------------	---------------------------------	----------------------------------------------

Alyssum – 3 stems	Aster - 1 stem	Canna - 1 spike						
Asters - 1 stem	Chrysanthemum - Cushion 1 spray	Dahlia - Large - over 8" - 1 bloom Needs foliage						
Bachelor Buttons – 3 stems	Coreopsis – 3 stems	Dahlia - Medium - 4-8" - 1 bloom Needs foliage						
Celosis – Crested – 1 stem	Coneflower – 1 stem	Dahlia - Small - under 4" - 3 stems 1 bloom per stem Needs foliage

Pansy - 3 blooms	Yarrow – 1 stem							
Petunias - Spray	Viola – 3 stems							
Snapdragon - 1 stem								
Salvia - 3 stems, 1 variety								
Sunflower - 1 stem								
Verbenas - 1 stem								
Vinca – 1 stem								
Zinnia - Giant - over 4" 1 bloom								
Zinnia - Medium - 2" - 4" 1 bloom								
Zinnia - Small - 3 stems, 1 bloom Per stem								
Zinnia - Small - 3 stems, 1 bloom Per stem								

**Design Arrangement: Exhibitors must take part in Flower Garden Tour in Order To Display Arrangement**

1. Exhibitors may have **one exhibit in each theme** as a part of five additional possible 5 exhibits.
2. All Flowers used in the design must be grown by the exhibitor. Greenery may come from trees, shrubs, and garden plants but **may not** be purchased.
3. No artificial flowers or foliage are permitted.
4. No colorant is to be used in or on fresh plant material.
5. Backgrounds and bases may be used in all design classes if desired. Accessories are permitted, but emphasis is on the plant material.
6. Each part of the exhibit should be marked in an inconspicuous place with the exhibitors name, address and class number.
7. Design arrangement exhibits will be judged on design (35%), color (20%), distinction (15%), originality (15%), condition (15%).

**Class No.**  
**500 02**

**Class Name**  
Design Arrangement – **No goal card needed.**

- **Design Your Own – An arrangement of your own choosing. An index card with title or theme and**

- triangular, etc.) must be included.
- Patriot theme – incorporate red, white, and blue into your exhibit.

500 03 \_ **My Garden in a Jar – Limit of One Exhibit – No goal card needed.**

- A collection of flowers from exhibitors garden put in a clear, glass jar (i.e. mayonnaise or canning jar) with a goal card. No design element needed in this exhibit. Need to include a goal card.

500 04 \_ Container Grown Plant. **Requires a goal card or folder (due to the Extension Office by July 1<sup>st</sup>) for each exhibit, explaining when planted or how obtained, fertilizer, water habits, etc. List costs involved. Examples may include, but not limited to:**

- House plant
- Flowering plant
- Foliage - grown from foliage
- Dish garden - 3 or more plants - accessories permitted
- Cactus - 1 plant
- Terrarium - small, maximum dimensions 10" x 10". Minimum of 3 Plants, may contain accessories.
- Terrarium - large, minimum dimensions 10" x 10". Minimum of 3 plants, may contain accessories.
- Miniature garden – Fun things to add include: rocks, furniture, water feature and figures.

**\*\*\*IF GARDEN SAMPLES ARE BROUGHT TO THE FAIR THAT WERE GROWN IN CONTAINERS, EVEN IF THERE WAS NO IN-GROUND GARDEN, THOSE CONTAINERS ARE TO BE ON THE GARDEN TOUR PRIOR TO THE FAIR AND A GARDEN FOLDER IS TO BE DONE, JUST AS IF THEY WERE AN IN-GROUND GARDEN.\*\*\***

500 05 \_ Animals At The Fair – **Limit of 1 entry.** Test your creativity. Find any animal shaped planter and plant any indoor or outdoor plants in it. You can use as many plants as you like. Same requirements as Container Grown Plant

500 06 \_ **Sitting Pretty** – Decorate an old wooden chair or metal chair with a potted exhibit fitted within the seat.

**\*\*\*NOTE – THE HORTICULTURE EDUCATION DISPLAY CLASS (WAS CLASS 500 07) HAS A NEW NAME: HORTICULTURE (NOW CLASS 220 08), AND HAS BEEN MOVED TO THE AG & NATURAL RESOURCE DEPARTMENT. THIS ENTRY WILL BE CHECKED IN AND EVALUATED ON JULY 21.\*\*\***

**Flower Garden Tour**

**Class No.**      **Class Name**  
500 09\_      Flower Garden Tour Folder – Your flower garden folder **must** include the following:

**A goal card stating:**

- What was your exhibit goal(s)? (What did you plan to learn or do?)
- What steps did you take to learn or do this?
- What were the most important things you learned?

You also **must** include in your folder:

- A picture of the 4-H'er with the garden
- Drawing of garden with flower placements
- Varieties of plants listed
- Types of fertilizers, pesticides, and herbicides used: dates applied, amounts applied
- Total garden expenses
- A garden care calendar (provided by the Extension Office, or make your own)

Exhibitor should indicate on the front outside cover of the folder their official 4-H garden (as of September 15, 2010) and the age division (junior, intermediate, senior). The folder will be given to the judge after the flower garden tour.

**NOTE:**      **Following Conference Judging of all Floriculture Exhibits, the judge will declare a Best of Show Exhibit.**
